## **Introduction to Linguistic Anthropology ANT2010 CORE OUTCOMES**

Upon completion of this course, students will be able to:

1. Discuss the place of Linguistic Anthropology in a multi-field Anthropology.
2. Describe the mutually-constitutive relationship between language and culture.
3. Define and apply key theories and concepts of Linguistic Anthropology, minimally: linguistic relativity, communities of practice, indexicality, and language performance.
4. Explain the different analytical approaches of Linguistic Anthropology, minimally: fieldwork and language documentation, ethnography of speaking, and discourse analysis.
5. Explain different modalities of language, such as: non-verbal communication, writing, and sign language.
6. Apply Linguistic Anthropology field methods to analyze the social construction of society and identities through linguistic practices.
7. Identify and explain different anthropological perspectives on language change, such as: language maintenance and death, pidgin and creole, and multilingualism.
8. Recognize and think critically about the power of words and language ideologies.
