## Section I Notes

### **General Notes:**

1. Definitions of terms in this section can be found in the Glossary.
2. Other notes may be found in the Profiles section of this data book.
3. Totals are actual expenditures during each Fiscal Year listed.
4. Due to rounding, numbers may not match other published reports.
5. During Fiscal Years 2020 through 2024 each university received and expended funding to address the COVID-19 pandemic. The amounts vary by institution and are included in the “other” categories and in restricted use amounts on the Section 1 tables.
6. State university finance data can also be found on the “Finance” tab of the Kansas Higher Education Statistics (KHEStats) web tool. KHEStats provides more robust historic data than the data books and can be accessed at [stats.kansasregents.gov](http://stats.kansasregents.gov).

### **Table 1.13: General Use Operating Expenditures by Program**

1. There was a large increase in the General Use Auxiliary Enterprise category from FY 2021 to FY 2022. This increase was largely from Kansas State University, who attributed the increase to a more normal year of operations for the Childhood Development Center.

### **Table 1.14: General Use Operating Expenditures by Object**

1. In recent years, University of Kansas Medical Center’s housestaff positions have been almost exclusively funded from non-general use funds. The majority of their housestaff positions are funded from the restricted fee fund. Since FY 2022, in the limited instances where general use funds have been used for housestaff positions, those positions have been listed as classified FTE positions. The table appearing in the 2026 data book reflects FY 2021 funding for 2.9 FTE housestaff positions funded from general use funds.
2. In FY 2021, the University of Kansas Medical Center began utilizing a new payroll system, which resulted in university support staff being reported as part of the unclassified staff.
3. The 2024 State University data book reflected an error. The “Other Operating Expenditures” amount was overstated by \$15,864,201 (the amount of the utilities expenditures for the year). The amount has been corrected, starting with the 2025 State University data book, and will not match the previous edition.

### **Table 1.34: General Use Operating Expenditures by Object**

1. The 2024 State University data book reflected an error. The “Other Operating Expenditures” amount was overstated by \$15,864,201 (the amount of the utilities expenditures for the year). The amount has been corrected, starting with the 2025 State University data book, and will not match the previous edition.

### **Table 1.40: Gross General Use Educational Expenditures per Student Credit Hour and per Fall FTE Student**

1. The Educational Program consists of expenditures for Instruction, Academic Support, Student Services and Institutional Support. This comparison allows analysis of change in those expenditures on a per student basis. Change in expenditures per student may result from either budgetary adjustments or enrollment change. This comparison makes no distinction on variance by educational level of academic discipline.
