

STATE UNIVERSITY DATA BOOK

January 2026

KANSAS BOARD OF REGENTS

MEMO

To: Kansas Board of Regents
From: Elaine Frisbie
Vice President for Finance and Administration
Re: **STATE UNIVERSITY DATA BOOK, January 2026**

Enclosed is the recently completed State University Data Book. Board staff has produced this document since 1993 with the assistance of the state universities. It is designed to provide a ready reference of tabular data concerning key facts about the state universities governed by the Board. Additionally, to further assist in defining frequently used budgetary and demographic terms, a glossary of terms is provided.

By 1863, the Kansas Legislature had created the first public university, Kansas State Normal School, now Emporia State University. Later that year, the University known today as The University of Kansas, was established and the Agricultural College, now known as Kansas State University, was created. In 1900, federal legislation provided abandoned military reservation land at Fort Hays for a school now known as Fort Hays State University. In 1903, the Kansas Legislature created the Normal Training Auxiliary of the Emporia Normal School in Pittsburg, now known as Pittsburg State University. In 1886, Fairmount College of Wichita, a college affiliated with the Congregational Church, opened its doors. In 1926 the school became the Municipal University of Wichita, and it was brought under the Board of Regents in 1964 as Wichita State University, bringing the number of universities governed by the Board to six.

Organization

The State University Data Book is organized in six sections: Finance; Tuition and Fees; Students; Faculty and Staff; Facilities; and Institutional Profiles. At the end of each section, the reader will find relevant explanatory notes for various tables in that section.

Availability of Data

An electronic version of the Data Book along with copies of each table are made available online by navigating from the agency's main website → Data → System Data → Higher Education Data Books.

Kansas Higher Education Statistics (KHEStats)

KHEStats is a web-based reporting tool for providing the public access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. The tool is available by navigating from the agency's main website → Data → KHEStats.

★ LEADING HIGHER EDUCATION ★

KHEStats reports are generated from data collected by the Kansas Board of Regents from the state's 32 public higher education institutions (six state universities, one municipal university, nineteen community colleges, and six technical colleges). The data collected throughout the year support reporting about enrollments, completions, employment and wages of our System's graduates in the region, and other characteristics.

If you have questions concerning the content of the materials contained in the Data Book, please contact our help desk at irhelp@ksbor.org. We hope the Data Book will be useful to you.

STATE UNIVERSITY DATA BOOK

January 2026

Table No.	Title	Page
SECTION 1 - FINANCE		
1.10	Total Operating Expenditures by Fund, State University Totals, Fiscal Year 2020 – 2025	2
1.12	All Funds Operating Expenditures by Program, State University Totals, Fiscal Year 2020 – 2025	4
1.13	General Use Operating Expenditures by Program, State University Totals, Fiscal Year 2020 – 2025	6
1.14	General Use Operating Expenditures by Object, State University Totals, Fiscal Year 2020 – 2025	8
1.30	Total Operating Expenditures by Fund, State Universities, Fiscal Year 2020 – 2025	10
1.32	All Funds Operating Expenditures by Program, State Universities, Fiscal Year 2020 – 2025	12
1.33	General Use Operating Expenditures by Program, State Universities, Fiscal Year 2020 – 2025	14
1.34	General Use Operating Expenditures by Object, State Universities, Fiscal Year 2020 – 2025	16
1.40	Gross General Use Educational Expenditures Per Student Credit Hour, Fiscal Year 2020 – 2025	18
1.40a	Gross General Use Educational Expenditures Per Fall FTE Student, Fiscal Year 2020 – 2025.....	18
	Section 1 Notes.....	19
SECTION 2 - TUITION AND FEES		
2.1a	Undergraduate Resident Tuition and Required Fees, Academic Year 2021 – 2026.....	22
2.1b	Undergraduate Non-resident Tuition and Required Fees, Academic Year 2021 – 2026.....	23
2.1c	Graduate Resident Tuition and Required Fees, Academic Year 2021 – 2026	24
2.1d	Graduate Non-resident Tuition and Required Fees, Academic Year 2021 – 2026	25
2.2	Resident/Non-resident Tuition Rates by Student Level, Academic Year 2026.....	26
2.3	Undergraduate Tuition and Fees Five-Year Comparison, Academic Year 2020 and 2025	27
2.4	Ratio of Tuition Revenues to Educational Costs, Fiscal Year 2020 – 2025	28
2.41	Food and Housing Costs, Academic Year 2026.....	28

2.6	Relationship of Average Resident Tuition Per Semester and Consumer Price Index, 2004 – 2024	29
2.7	Relationship of Average Resident Tuition Per Academic Year and Per Capita Income, 2004 – 2024	30
2.8	Consumer Price Index (CPI-U) and Higher Education Price Index (HEPI), 2004 – 2024.....	31
	Section 2 Notes.....	32

SECTION 3 - STUDENTS

3.1	Enrollment Headcount by Institution, Fall 2020 – 2025.....	36
3.2	Full-Time Equivalent (FTE) Enrollment by Institution, Fall 2020 – 2025.....	36
3.1a	Enrollment Headcount by Institution, Academic Year 2020 – 2025.....	37
3.2a	Full-Time Equivalent (FTE) Enrollment by Institution, Academic Year 2020 – 2025	37
3.3	Demographic Profiles of Students at State Universities, Academic Year 2020 – 2025	38
3.5	Average ACT Composite Scores Among Entering Freshmen, Academic Year 2020 – 2025	40
3.6	Degrees and Certificates Conferred at State Universities by Type, Academic Year 2020 – 2025	41
3.6a	Degrees and Certificates Conferred at State Universities by Institution, Academic Year 2020 – 2025	42
3.7	Graduation Rates of First-Time, Full-Time Freshmen, Entering Cohort Fall Year 2015 – 2020.....	43
3.8	One Year Retention Rate of First-Time, Full-Time Freshmen, Fall 2019 – 2024.....	45
3.81	One Year Retention Rate of First-Time, Full-Time Freshmen by ACT Score, Fall 2024.....	46
3.9	Undergraduate Transfers to State Universities by Institution of Last Attendance, Fall 2024.....	47
3.10	Student Success Index, Entrance Year 2014 – 2019	49
	Section 3 Notes.....	50

SECTION 4 - FACULTY AND STAFF

4.1	Budgeted Positions by Program, Fiscal Year 2026.....	54
4.3	Average Faculty Salaries by Academic Rank, Fiscal Year 2026	58
4.32	Average Faculty Salary Increases by Academic Rank, Continuing Faculty, Fiscal Year 2026.....	59
4.33	Average Salary Increases, Other Full-Time, Continuing Personnel, Fiscal Year 2026	60
4.34	Summary of Budgeted Salary Increases for Full-Time Continuing Unclassified Personnel, Fiscal Year 2026	61
4.35	Average Salaries of Instructional Faculty, Compared to Peer Institutions, Fiscal Year 2025	62
4.36	Graduate Teaching Assistants by Number and Average Stipend, Fiscal Year 2026	64
4.4	Faculty by Age, Fiscal Year 2026.....	65
4.5	Tenure Status of Institutional Personnel, Fiscal Year 2025	65

4.6	Faculty Resignations, Retirements, and Terminations by Institution, Fiscal Year 2020 – 2025	66
	Section 4 Notes.....	67

SECTION 5 - FACILITIES

5.11a	Building Inventory: All Buildings in Use, Fall 2025.....	72
5.11b	Building Inventory: Mission Critical Buildings, Fall 2025	72
5.13	Building Inventory: Area of Mission Critical Buildings on State University Campuses by Age, Fall 2025.....	72
5.21	Space Utilization: Instructional Spaces Comparison by State University Campus, Fiscal 2025	73
5.22	Space Utilization: Percentage of Weekly Hours Used in General-Purpose Classrooms, Fiscal 2025	73
	Section 5 Notes.....	74

Section I Notes

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Other notes may be found in the Profiles section of this data book.
3. Totals are actual expenditures during each Fiscal Year listed.
4. Due to rounding, numbers may not match other published reports.
5. During Fiscal Years 2020 through 2024 each university received and expended funding to address the COVID-19 pandemic. The amounts vary by institution and are included in the “other” categories and in restricted use amounts on the Section 1 tables.
6. State university finance data can also be found on the “Finance” tab of the Kansas Higher Education Statistics (KHEStats) web tool. KHEStats provides more robust historic data than the data books and can be accessed at stats.kansasregents.gov.

Table 1.13: General Use Operating Expenditures by Program

1. There was a large increase in the General Use Auxiliary Enterprise category from FY 2021 to FY 2022. This increase was largely from Kansas State University, who attributed the increase to a more normal year of operations for the Childhood Development Center.

Table 1.14: General Use Operating Expenditures by Object

1. In recent years, University of Kansas Medical Center’s housestaff positions have been almost exclusively funded from non-general use funds. The majority of their housestaff positions are funded from the restricted fee fund. Since FY 2022, in the limited instances where general use funds have been used for housestaff positions, those positions have been listed as classified FTE positions. The table appearing in the 2026 data book reflects FY 2021 funding for 2.9 FTE housestaff positions funded from general use funds.
2. In FY 2021, the University of Kansas Medical Center began utilizing a new payroll system, which resulted in university support staff being reported as part of the unclassified staff.
3. The 2024 State University data book reflected an error. The “Other Operating Expenditures” amount was overstated by \$15,864,201 (the amount of the utilities expenditures for the year). The amount has been corrected, starting with the 2025 State University data book, and will not match the previous edition.

Table 1.34: General Use Operating Expenditures by Object

1. The 2024 State University data book reflected an error. The “Other Operating Expenditures” amount was overstated by \$15,864,201 (the amount of the utilities expenditures for the year). The amount has been corrected, starting with the 2025 State University data book, and will not match the previous edition.

Table 1.40: Gross General Use Educational Expenditures per Student Credit Hour and per Fall FTE Student

1. The Educational Program consists of expenditures for Instruction, Academic Support, Student Services and Institutional Support. This comparison allows analysis of change in those expenditures on a per student basis. Change in expenditures per student may result from either budgetary adjustments or enrollment change. This comparison makes no distinction on variance by educational level of academic discipline.

Section II Notes

General Notes:

1. Tuition and fees listed in this section have been approved by the Kansas Board of Regents, per standard procedures as outlined in the KBOR Policy Manual. Section II.D.1 a-b of the KBOR Policy Manual provides that "Each state university shall submit proposed changes for the following to the student body president and to the appropriate student organization prior to Board consideration: (1) fees required of every student as a condition of enrollment; (2) student housing fees; (3) building construction fees; (4) changes in academic fees; and (5) tuition rates." Once approved by the appropriate student organizations, all proposed changes for tuition and required fees must come before the Fiscal Affairs and Audit Committee of the Board for their review. After approval by the Fiscal Affairs and Audit Committee, proposals are then sent to the full board for their final approval.
2. Rates for the University of Kansas and Kansas State University exclude University of Kansas Medical Center, Kansas State University Vet Med Center, and Kansas State University Salina.
3. The average resident undergraduate tuition per AY (two semesters) is measured in terms of Academic Year for tuition and fees.
4. Definitions of terms in this section can be found in the Glossary.
5. State university tuition and fee data can also be found on the "Tuition" tab of the Kansas Higher Education Statistics (KHEStats) web tool. KHEStats provides more robust historic data than the data books and can be accessed at stats.kansasregents.gov.

Tables 2.1a – 2.1d

1. The Board of Regents approved a new \$120 per semester infrastructure fee for Pittsburg State University effective with the Spring Semester of Academic Year 2021. This is reflected in the tables starting with Academic Year 2022.
2. Rates for the University of Kansas and Kansas State University exclude University of Kansas Medical Center, Kansas State University Vet Med Center, and Kansas State University Salina.

Table 2.2: Tuition and Fees – Resident/Non-resident by Student Level

1. Table 2.2 identifies tuition charged of both undergraduates and graduates for state universities. It also identifies both tuition and required fees being charged at each institution. Each institution has certain fees mandatorily charged of each student in addition to tuition. These fees finance a variety of items including student activities, student health services, and the cost of student unions. Regarding budget, a major difference is that tuition is part of the General Use budget and fees are a part of the Restricted Use budget. When making national comparisons of student charges, it is necessary to compare combined tuition and required fees.
2. The Board of Regents approved a new \$120 per semester infrastructure fee for Pittsburg State University effective with the Spring Semester of Academic Year 2021. This is reflected in the tables starting with Academic Year 2022.

Table 2.3: Five-Year Undergraduate Tuition and Fees Comparison

1. Beginning in Academic Year 2014, the universities now have revised peer institutions. In Academic Year 2023, Wichita State University again revised their peer institutions. In Academic Year 2024, Kansas State University again revised their peer institutions. A list of previous peers and revised peers for each institution is as follows:

University of Kansas	
Previous Peers	Revised Peers
University of Colorado	Indiana University (Bloomington)
University of Iowa	University of Missouri (Columbia)
University of Oregon	University of Oregon
University of North Carolina	Michigan State University
University of Oklahoma	University of Buffalo

Kansas State University

Previous Peers	Revised Peers
Auburn University	Auburn University
Clemson University	Iowa State University
Colorado State University	Oklahoma State University
Oklahoma State University	University of Arkansas
University of Massachusetts (Amherst)	University of Nebraska-Lincoln

Wichita State University

Previous Peers	Revised Peers
New Mexico State University	Cleveland State University
University of Massachusetts – Lowell	Portland State University
University of Nevada-Reno	The University of Texas at San Antonio
University of North Dakota	University of Memphis
Wright State University	University of Nebraska at Omaha

Emporia State University

Previous Peers	Revised Peers
Eastern Washington University	Colorado State University – Pueblo
Northwest Missouri State University	Northwest Missouri State University
Northern Michigan University	Pittsburg State University
Salisbury University – MD	University of Nebraska – Kearney
Western Carolina University	West Texas A&M University

Pittsburg State University

Previous Peers	Revised Peers
Eastern Washington University	Arkansas Tech University
Northwest Missouri State University	Ferris State University
Northern Michigan University	Indiana University of Pennsylvania
Salisbury University – MD	Northwest Missouri State University
Western Carolina University	Valdosta State University

Fort Hays State University

Previous Peers	Revised Peers
Eastern Washington University	Northwest Missouri State University
Northwest Missouri State University	Colorado Mesa University
Northern Michigan University	Northeastern State University – OK
Salisbury University – MD	Southeast Missouri State University
Western Carolina University	Tarleton State University

Table 2.4: Ratio of Tuition Revenues to Education Costs

1. Compiled from Tuition revenues as a percentage of Education costs, defined as: General Use Expenditures for Instruction, Academic Support, Student Services, Institutional Support, Scholarships, and Physical Plant.
2. This is the traditional “Kansas Fee to Cost Ratio” which has been measured in this manner since 1966.

Table 2.41: Food and Housing Costs

1. For the purposes of this table, housing charges are based on a double occupancy room and food charges are the maximum meal plan. These definitions align with the Integrated Postsecondary Education Data System (IPEDS) Costs survey component.
2. The phrase “food and housing” was formerly referred to as “room and board”. The updated terminology aligns with federal changes in response to the Free Application for Federal Student Aid (FAFSA) Simplification Act.

Table 2.6: Relationship of Resident Tuition per Semester and Consumer Price Index

1. The average resident undergraduate tuition per semester is measured in terms of Academic Year for tuition and fees.
2. The Consumer Price Index-Urban (CPI-U) data comes from the Bureau of Labor Statistics’ CPI Databases. The data shown in Table 2.6 of the State University Data Book in the CPI-U column is the annual average found on CPI Databases: All Urban Consumers (CPI-U), All items in U.S. city average, all urban consumers. For individuals interested, the CPI Databases can be found here: <https://www.bls.gov/cpi/data.htm>.

Table 2.7: Relationship of Resident Tuition per Semester and Per Capita Income

1. The Bureau of Economic Analysis regularly revises their estimates for state per capita income totals. Therefore, the percent changes, ratio percentages, and Kansas per capita income data all differ from prior year data books.
2. The Kansas per capita income data comes from the U.S. Department of Commerce, Bureau of Economic Analysis (BEA), specifically from the personal income summary. The per capita personal income is the total annual personal income divided by the total midyear population. All dollar estimates are in current dollars and are not adjusted for inflation. The Bureau of Economic Analysis releases data in April which are estimates based on an average of the four quarters of the previous year. In September, the BEA releases an annual figure, which is the total used for Table 2.7 of the State University Data Book. This data can be found on the BEA’s interactive data tool: <https://www.bea.gov/itable/national-gdp-and-personal-income>.

Table 2.8: Consumer Price Index (CPI-U) and Higher Education Index (HEPI)

1. The CPI-U data comes from the Bureau of Labor Statistics’ CPI Databases. The data shown in Table 2.8 of the State University Data Book in the CPI-U column is the annual average found on CPI Databases: All Urban Consumers (CPI-U), All items in U.S. city average, all urban consumers. For individuals interested, the CPI Databases can be found here: <https://www.bls.gov/cpi/data.htm>.
2. The HEPI data comes from the Research Associates of Washington and Commonfund Institute, specifically Table A of the Commonfund Report— the Historical Summary of Higher Education Price Index and Consumer Price Index. The HEPI data is reported based on a fiscal year.
3. The Higher Education Price Index (HEPI) is an inflation index designed specifically for use by institutions of higher education. HEPI measures the average relative level in the price of a fixed market basket of goods and services purchased by colleges and universities each year through current fund educational and general expenditures, excluding research. HEPI is considered a more accurate indicator or cost changes for colleges and universities than the Consumer Price Index (CPI), and it is used primarily to project future budget increases required to preserve purchasing power. The HEPI report can be found here: <https://www.commonfund.org/higher-education-price-index>.

Kansas Board of Regents

Section III Notes

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. State university student data can also be found on the Kansas Higher Education Statistics (KHEStats) web tool. The tool includes many tabs that provide data pertinent to this section, such as the “Enrollment”, “Credentials”, “Graduation”, and “Retention” tabs. KHEStats provides more robust historic data than the data books and can be accessed at stats.kansasregents.gov.

Table 3.3: Demographic Profiles of Students at State Universities

1. Totals include the six state universities, University of Kansas – Medical Center, and KSU – Veterinary Medicine Center.
2. The “% Change” column for Age and Race/Ethnicity does not reflect the change in percentage but instead reflects the percent change in the number of students in each category for the time period. This number more accurately reflects the change in student population.
3. Prior to AY 2022, Fort Hays State University reported their China campus students as Non-Resident Aliens. For AY 2022, they incorrectly reported their China campus students in the Asian and Unknown categories. After reviewing federal guidance, FHSU provided corrected AY 2022 numbers for the state university data book. Starting with AY 2022 in the 2023 State University Data Book, China campus students are now correctly reported in the Unknown category. Data for prior years has not yet been corrected.

Table 3.5: Average ACT Composite Scores Among Entering Freshmen

1. ACT definition of entering freshmen differs slightly from that used by institutions. Therefore, average ACT scores reported herein may differ slightly from averages reported by state universities. The ACT scores include both resident and non-resident entering freshmen.

Table 3.6: Degrees and Certificates Conferred at State Universities by Type

1. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
2. In Academic Year 2021, the University of Kansas had 13 awards from University of Kansas Medical Center programs. These awards were not initially included in the publication of the 2022 State University Data Book, but the data book has been updated, and these awards are now included in the “Other Awards” category.
3. In Academic Year 2022, Fort Hays State University submitted erroneous completion data. Upon request, the university provided corrected completion counts for each degree type. The corrected data was provided after publication for the 2023 State University Data Book, and for that reason Table 3.6 had not initially been updated to reflect these new counts. The corrected data for Academic Year 2022 has been published starting with the 2024 State University Data Book and will not match KHEStats.

Table 3.6a: Degrees Conferred at State Universities by Institution

1. See notes for Table 3.6.

Table 3.7: Graduation Rates of First-Time, Full-Time Freshman

1. This table includes undergraduate students who enter the Kansas public postsecondary system in the fall as first-time entering, full-time, degree-seeking students and shows the time it takes for the students to graduate from a Kansas public postsecondary institution.
2. Graduation rates are reported in 100 percent time, 125 percent time, 150 percent time and 200 percent time. The time can refer to four years, five years, six years and eight years for each of the rates for universities based upon 120 hours of completed coursework.
3. To the extent possible, IPEDS definitions are used for calculating graduation rates from KHEDS. A cohort of first-time, full-time degree-seeking students enrolled in the fall semester is used as the denominator. Of the cohort, those who graduate are used as the numerator.
4. KBOR does not track cohort exclusions; thus exclusions, as allowed by IPEDS, are not removed.

5. Prior to the 2023 State University Data Book, the data for this section was sourced from an institution-submitted survey. Starting in 2023 and moving forward, this section will be sourced from the KHEDS AY and Fall Census collections, to better align with the data presented in KHEStats.
6. The graduation rates for the University of Kansas cohort also include students who may have started as a first-time, full-time, degree seeking student at the University of Kansas and later attended or graduated from the University of Kansas Medical Center.
7. Starting with the 2025 State University Data Book, this table has been expanded to show six years of historic data instead of just the most current year's data.

Table 3.8: One Year Retention Rate of First-Time, Full-Time Freshmen

1. This table provides information on undergraduate students who enter the Kansas public postsecondary system in the fall as first-time entering, full-time, degree-seeking students who were enrolled (retained) in the Kansas public postsecondary system the following fall semester in which they first entered the system.
2. To the extent possible, IPEDS definitions are used for calculating retention rates from KHEDS. A cohort of first-time, full-time degree-seeking students enrolled in the fall semester is used as the denominator. Of the cohort, those who retain for the subsequent fall are used as the numerator.
3. KBOR does not track cohort exclusions; thus exclusions, as allowed by IPEDS, are not removed.
4. Prior to the 2023 State University Data Book, the data for this section was sourced from an institution-submitted survey. Starting in 2023 and moving forward, this section will be sourced from the KHEDS Fall Census collection, in an effort to better align with the data presented in KHEStats.
5. The retention rates for the University of Kansas cohort also include students who may have started as a first-time, full-time, degree seeking student at the University of Kansas and later attended or graduated from the University of Kansas Medical Center.
6. Due to data availability, prior data books reported cohort years with a one year lag. Beginning with the 2026 data book, the most recent data available is reported to align with other sources.

Table 3.81: One-Year Retention Rate of First-Time, Full-Time Freshmen by ACT Score

1. See notes for Table 3.8.

Table 3.9: Undergraduate Transfers to State Universities by Institution

1. Prior to the 2020 State University Data Book, this table used data from the Kansas Higher Education Enrollment Report (KHEER). The KHEER collection was discontinued in 2019 for public institutions and going forward, data from the KHEDS AY collection will be used to complete this table. As part of the data source change, this table has been expanded to include every Kansas public, postsecondary institution and will not match previously published data books.
2. Includes transfers to Kansas State University Salina.
3. Sector totals represent unduplicated student counts and may not match the sum of individual institutions.

Table 3.10: Six-Year Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.

Section IV Notes

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. The DBTF report has been rebranded as the State University Faculty Report to improve clarity. The data collected has not changed.
3. KU is exclusive of University of Kansas – Medical Center (KUMC). KUMC data is included separately on selected tables.
4. The State University Faculty Report asks for funding information that is used to allocate the faculty salary enhancement. The faculty member's position funding information should be derived from the institution's budget not from the funding reported in the payroll system. If the faculty member's position is not budgeted, then the payroll funding may be used.

Table 4.1: Budgeted Positions by Program

1. Beginning in Fiscal Year 2021, the "Research Support" position has been replaced by "Centralized Research Operations".

Table 4.3: Average Faculty Salaries by Academic Rank

1. Instructional staff data included in this table includes faculty on sabbatical leave at their regular salaries, even if reduced while on leave; replacements for faculty on leave without pay; and department heads, with faculty rank but no other administrative title.
2. Instructional staff data included in this table does not include temporary replacements for faculty on sabbatical leave; instructional faculty who are not employed on a full-time basis; faculty who donate services; faculty in a military organization and paid on a different scale from civilian employees; administrative officers with titles such as Dean of Instruction, Academic Dean, Librarian, Registrar, Coach, etc., even though they may devote part of their time to classroom instruction and have faculty rank; and undergraduate students who assist in the instruction of courses, but who have titles such as Teaching Assistant, Teaching Associate, etc.
3. The Total/Average column for Table 4.3 represents the total (sum) of each faculty category (Professors, Associate Professors, Assistant Professors, and Instructors) and the average salary total (total nine-month salary divided by total faculty) for all institutions listed.
4. Research and public service faculty includes full-time, combined 9- and 12-month appointments with 12-month salaries converted to 9-month salaries.

Table 4.32: Average Faculty Salary Increases by Academic Rank

1. Table does not include continuing lecturers or non-ranked instructional, research or public service faculty.

Table 4.35: Average Salaries of Instructional Faculty, Compared to Peer Institutions

1. Peer average is a weighted average of four faculty ranks, which factors in the distribution of faculty ranks of the State Universities.
2. University of Kansas data is exclusive of University of Kansas – Medical Center.
3. Kansas State University data does include Kansas State University – Veterinary Medical Center.
4. Relative Funding is determined by dividing the average salary for each institution by the average salary for their appropriate peer group.
5. Beginning in Fiscal Year 2014, the universities now have revised peer institutions. In Fiscal Year 2023, Wichita State University again revised their peer institutions. In Fiscal Year 2024, Kansas State University again revised their peer institutions. A list of previous peers and revised peers for each institution is as follows:

University of Kansas

<i>Previous Peers</i>	<i>Revised Peers</i>
University of Colorado	Indiana University (Bloomington)
University of Iowa	University of Missouri (Columbia)
University of Oregon	University of Oregon
University of North Carolina	Michigan State University
University of Oklahoma	University of Buffalo

Kansas State University

<i>Previous Peers</i>	<i>Revised Peers</i>
Auburn University	Auburn University
Clemson University	Iowa State University
Colorado State University	Oklahoma State University
Oklahoma State University	University of Arkansas
University of Massachusetts (Amherst)	University of Nebraska-Lincoln

Wichita State University

<i>Previous Peers</i>	<i>Revised Peers</i>
New Mexico State University	Cleveland State University
University of Massachusetts – Lowell	Portland State University
University of Nevada-Reno	The University of Texas at San Antonio
University of North Dakota	University of Memphis
Wright State University	University of Nebraska at Omaha

Emporia State University

<i>Previous Peers</i>	<i>Revised Peers</i>
Eastern Washington University	Colorado State University (Pueblo)
Northwest Missouri State University	Northwest Missouri State University
Northern Michigan University	Pittsburg State University
Salisbury University (MD)	University of Nebraska (Kearney)
Western Carolina University	West Texas A&M University

Pittsburg State University

<i>Previous Peers</i>	<i>Revised Peers</i>
Eastern Washington University	Arkansas Tech University
Northwest Missouri State University	Ferris State University
Northern Michigan University	Indiana University of Pennsylvania
Salisbury University (MD)	Northwest Missouri State University
Western Carolina University	Valdosta State University

Fort Hays State University

<i>Previous Peers</i>	<i>Revised Peers</i>
Eastern Washington University	Northwest Missouri State University
Northwest Missouri State University	Colorado Mesa University
Northern Michigan University	Northeastern State University (OK)
Salisbury University (MD)	Southeast Missouri State University
Western Carolina University	Tarleton State University

Table 4.36: Graduate Assistants by Number and Average Stipend

1. The comprehensive total for the average stipend is not all average stipends added together but rather the sum of each institutions' Full-Time Equivalent multiplied by their average stipend, divided by the total FTE.

Section V Notes

General Notes:

1. Buildings in Use – include state-owned buildings; state-owned buildings managed by auxiliary enterprises and affiliated corporations; buildings owned by an endowment, foundation or similar group; leased facilities and spaces and public private partnership (P3) facilities owned and operated by a private entity for public use.
2. Mission Critical - buildings that are predominately used for the academic and/or research missions of the State universities, and the infrastructure that directly supports these buildings.
3. The KBOR Facilities Capital Renewal Initiative is focused on mission critical buildings.
4. For more detailed information on the state university facilities data, please refer to the State University Facilities Reports, which can be found on this page: <https://kansasregents.gov/data/legislative-reports>.

Tables 5.11a – 5.11b: Building Inventory: All Buildings in Use and Mission Critical Buildings

1. KU includes Edwards Campus and the Kansas Law Enforcement Training Center (KLETC).
2. KUMC includes KUMC-Wichita campus.
3. KSU includes KSU Olathe, KSU Veterinary Medical Center, Kansas State University Salina, KSU – ESARP, and KSU Agriculture Experiment Stations.
4. Total Gross Area - The sum of all areas on all floors of a building including the exterior walls, structure, HVAC shafts, stairs and elevators.
5. Acreage data has not been reported for the 2026 Data Book because a study is being conducted on university property.

Tables 5.12: Building Inventory: Area of All Buildings on State University Campuses by Age

1. This table was removed and replaced with Table 5.13, starting with the 2024 State University Data Book, to reflect the shift in the recent State University Facilities Report from the “all buildings” category to the “mission critical” building category.

Tables 5.13: Building Inventory: Area of Mission Critical Buildings on State University Campuses by Age

1. This table replaced Table 5.12, starting with the 2024 State University Data Book, and details the “mission critical” category instead of the “all buildings” category in the former Table 5.12.
2. KU includes Edwards Campus and the Kansas Law Enforcement Training Center (KLETC).
3. KUMC includes KUMC-Wichita campus.
4. KSU includes KSU Veterinary Medical Center, Kansas State University Salina, KSU – ESARP, and KSU Agriculture Experiment Stations.

Table 5.21: Space Utilization: Instructional Spaces Comparison by State University Campus

1. General-Purpose Classrooms - classrooms primarily used for lectures or discussions. The spaces are not configured or equipped to limit their use to a particular discipline and are centrally managed by the Registrar.
2. Dedicated Classrooms – include both departmental dedicated classrooms and departmental general-purpose classrooms.
 - a. Departmental Dedicated Classrooms - These rooms are dedicated because of a particular item in the room, such as a piano in a Music classroom, or stored demonstration materials related to Anthropology or Geology that makes sharing of the space challenging.
 - b. Departmental General-Purpose Classrooms - Based on the campus walkthroughs and course assignments, these rooms appear to be more like campus general-purpose classrooms, although falling under departmental control.
3. Specialized Instructional Spaces - spaces configured and equipped for instruction in a particular discipline and are used primarily for regularly-scheduled courses.

Table 5.22: Space Utilization: Percentage of Weekly Hours Used in General-Purpose Classrooms

1. Three components for each instructional space type were examined to evaluate utilization efficiency:
 - a. Square feet per seat or station
 - b. Percentage of seats or stations occupied when the room is scheduled
 - c. Percentage of weekly available hours scheduled relative to the institutional scheduling window
2. The industry standard target metric is that classrooms should be scheduled for two-thirds, or 67 percent, of the available weekly hours.

Kansas Board of Regents

85

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.
2. In Academic Year 2021, the University of Kansas had 13 awards from University of Kansas Medical Center programs. These awards were not initially included in the publication of the 2022 State University Data Book, but the data book has since been updated and these awards are now included in the “Other Awards” category.

Table A: Student Success Index

1. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.
2. Cohort measured includes all first-time entering and transferring degree-seeking students.

Table B: Total Operating Expenditures by Fund

1. The University of Kansas submitted updated financial data for FY 2022. This data has been updated and published data will reflect these changes, starting with the 2024 State University Data Book.
2. Substantial increases in General Use expenditures from FY 2022 to FY 2023 reflect increases for the operating grant, a 5.0 percent pay plan increase, IT infrastructure and cybersecurity investments and capital renewal. These increases are partially offset by decreases in federal COVID related expenditures made in FY 2022 and not available in FY 2023.
3. Between FY 2023 and FY 2024, there were substantial increases in State General Fund expenses, including additional state funding for student financial aid, salary adjustments, and Geological Survey program restorations. General Fees Fund expenditures increased to reflect expenditures for the Jayhawk Global Initiative, salary adjustments, and overall increased expenditures reflecting enrollment increases. The growth in restricted use expenditures are primarily the result of football stadium renovations and salary adjustments.
4. The overall increase in expenses from FY 2024 to FY 2025 is primarily related to funding for the Kansas Law Enforcement Training Center, including \$20 million for capital improvement projects; and funding for university-wide pay plan adjustments.

Table C: Total Operating Expenditures by Program

1. Expenditures from FY 2022 to FY 2023 increased across most programs, most notably Instruction and Research. The increases were primarily related to increases for the operating grant; a 5.0 percent pay plan increase, IT infrastructure and cybersecurity investments and capital renewal. These increases are partially offset by decreases in federal COVID related expenditures made in FY 2022 and not available in FY 2023.
2. From FY 2023 to FY 2024, the University attributed most of the increased expenditures to overall increased enrollment and externally funded research grants.
3. From FY 2024 to FY 2025, the university experienced an overall increase, related to pay plan adjustments, cyber security expenses, and costs related to increased enrollment.

Table D: General Use Operating Expenditures by Program

1. As noted above in Table C, expenditures from FY 2022 to FY 2023 increased across most programs. The increases were primarily related to increases for the operating grant; a 5.0 percent pay plan increase, IT infrastructure and cybersecurity investments and capital renewal.
2. The University reported that expenditures increased from FY 2023 to FY 2024 primarily because of increased enrollment.
3. As noted above, from FY 2024 to FY 2025, the university experienced an overall increase related to pay plan adjustments, cyber security expenses, and costs related to increased enrollment.

Table E: General Use Operating Expenditures by Object

1. Substantial increases from FY 2022 to FY 2023 included: unclassified salaries, reflecting state pay plan increases and other personnel related costs; and other operating expenses, reflecting capital renewal projects, capital improvements, IT infrastructure and cybersecurity initiatives.
2. The University attributed most of the increased expenditures from FY 2023 to FY 2024 primarily because of increased enrollment.
3. The University experienced an overall increase from FY 2024 to FY 2025, for pay plan adjustments, funding for the Kansas Law Enforcement Training Center and Kansas Geological Survey, and expenses related to increased enrollment.

Kansas Board of Regents

94

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.

Table B: Total Operating Expenditures by Fund

1. From FY 2022 to FY 2023, substantial expenditure increases from State General Fund expenditures were the result of increases for the operating grant, a 5.0 percent pay plan increase, IT infrastructure and cybersecurity investments. Restricted Use fund increases reflect a 15 percent increase in research expenditures. A partially offsetting decrease in tuition revenues reflect a conscious decision to hold back on General Fees Fund expenditures.
2. Expenditures from tuition funds increased by \$7.4 million from FY 2023 to FY 2024. KUMC indicated that it had anticipated a shortage in tuition in FY 2023, so salaries and other expenses budgeted with tuition dollars were covered by other funding sources in FY 2023. These salaries and other expenses were moved back to tuition funding for FY 2024. Restricted use expenditures increased by \$67.8 million from FY 2023 to FY 2024, primarily related to the new cancer center building, other capital improvements, and to address salary issues.
3. From FY 2024 to FY 2025, the Medical Center experienced a total increase of \$53.1 million, primarily in increased restricted use expenses for Research, Graduate Medical Education, and the Cancer Center Building development.

Table C: Total Operating Expenditures by Program

1. Substantial increases occurred from FY 2022 to FY 2023 across most programs. Most notably, large increases occurred in Research, primarily due to a 15 percent increase in research expenditures. Other substantial increases occurred in Instruction, primarily for state pay plan increases.
2. KUMC experienced \$75.8 million in increased expenditures over several programs. Most of the increases are attributed to salary increases and adjustments, as well as costs related to the new cancer center building.
3. From FY 2024 to FY 2025, the Medical Center experienced overall increases in salary plan adjustments and capital expense, primarily for the Cancer Center.

Table D: General Use Operating Expenditures by Program

1. Increases from FY 2022 to FY 2023 occurred primarily in Instruction (for state pay plan costs, and reallocation of funding from other programs) and were partially offset by reductions in other operating expenditures, mostly as the result of reallocation of debt service from General Use to Restricted Use funding sources.
2. Net Increases from FY 2023 to FY 2024 are largely attributed to salary and benefit adjustments and additional availability of student financial aid funding.

Table E: General Use Operating Expenditures by Object

1. In Fiscal Years 2019 through 2022, the University of Kansas Medical Center reflected a minimal number of housestaff positions and funding as part of the general use budget. In Fiscal Year 2022, since no corresponding expenses were reported, 1.8 FTE housestaff positions are being shown as part of classified FTE positions.
2. In FY 2021, the University of Kansas Medical Center began utilizing a new payroll system, which resulted in classified university support staff expenditures being reported as part of the unclassified staff expenditures.
3. Increases in expenditures from FY 2022 2023 were in unclassified salaries, for state pay plan increases, in All Other Fringe Benefits, related to additional retirements. In addition, Utilities increased substantially as the result of natural gas and electricity rate increases. The net increase from FY 2023 to FY 2024 is primarily related to salary adjustments.

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.

Table A: Student Success Index

1. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.
2. Cohort measured includes all first-time entering and transferring degree-seeking students.

Table B: Total Operating Expenditures by Fund

1. General Use expenditures increased substantially from FY 2022 to FY 2023, primarily for State General Fund funding restorations and state pay plan increases. Restricted use expenditures also increased, primarily for state pay plan increases. The increases were partially offset by decreases in General Fees Fund expenditures, reflecting enrollment declines and realigned spending with the State General Fund restoration.
2. Increases from FY 2024 to FY 2025 were primarily related to bringing the Agriculture Innovation program online and ongoing expenses related to hiring for the Bio Manufacturing and Water Institute programs, and the jet flight training program.

Table C: Total Operating Expenditures by Program

1. Total expenditures by program from FY 2022 to FY 2023 increased substantially across most programs, most notably in Scholarships/Fellowships (reflecting a new scholarship and needs-based initiatives), Physical Plant (primarily related to SGF funding restorations and a capital renewal initiatives) and Academic Support and Student Services (both primarily related to State General Fund restorations, and state pay plan increases).
2. Increases from FY 2024 to FY 2025 were primarily related to bringing the Agriculture Innovation program online and ongoing expenses related to hiring for the Bio Manufacturing and Water Institute programs, and the jet flight training program. In addition, the amounts reflect NISS Playbook increases, and increased expenses related to cybersecurity issues.

Table D: General Use Operating Expenditures by Program

1. There was a large increase in General Use auxiliary expenses from FY 2021 to FY 2022, which the university attributes to a more normal year of operations for the Childhood Development Center.
2. There were substantial increases in expenditures across several programs from FY 2022 to FY 2023, primarily the result of State General Fund restorations, and state pay plan increases.
3. Increases from FY 2024 to FY 2025 were primarily related to bringing the Agriculture Innovation program online and ongoing expenses related to hiring for the Bio Manufacturing and Water Institute programs, and the jet flight training program. In addition, the amounts reflect NISS Playbook increases, and increased expenses related to cybersecurity issues.

Table E: General Use Operating Expenditures by Object

1. General Use operating expenditures by object increased from FY 2022 to FY 2023, primarily reflecting expenditures for new State General Fund appropriations state pay plan increases and increased utilities costs.
2. The 2024 State University Data Book reflected an error. The “Other Operating Expenditures” amount was overstated by \$15,864,201, the amount of the utilities expenditures for the year. The amount has been corrected in the 2025 State University Data Book will not match the previous edition.
3. Increases from FY 2024 to FY 2025 were primarily related to bringing the Agriculture Innovation program online and ongoing expenses related to hiring for the Bio Manufacturing and Water Institute programs, and the jet flight training program. In addition, the amounts reflect NISS Playbook increases, and increased expenses related to cybersecurity issues.

2026 State University Data Book

General Notes:

1. Due to rounding, numbers may not match other published reports.
2. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Profile enrollment and demographic data for KSU-Vet Med Center was derived from the Kansas State University's KHEDS AY submission by filtering on the major for each student.
2. The "% Change" column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.

Table B: Total Operating Expenditures by Fund

1. Starting in FY 2017, Kansas State University Veterinary Medical Center's "Hospital Revenue Funds" are no longer part of the General Use Expenditures and are now counted in Restricted Use.
2. Total expenditures decreased substantially from FY 2022 to FY 2023, primarily reflecting a decrease in restricted use expenditures related to the shift of the teaching hospital to a separate entity.

Table C: Total Operating Expenditures by Program

1. Total expenditures by program from FY 2022 to FY 2023 decreased substantially, particularly in Instruction and Public Service, primarily reflecting the teaching hospital shift to a separate entity. These decreases were partially offset by state pay plan increases.

Table D: General Use Operating Expenditures by Program

1. From FY 2022 to FY 2023, expenditures for the Instruction program increased substantially, primarily due to State General Fund restorations and state pay plan increases. Additionally, expenses for the Physical Plant decreased, primarily due to completion of the Mosier Hall project.
2. Although some funding is realigned from selected programs to others, the overall decrease from FY 2024 to FY 2025 is primarily the result of completion of projects in FY 2024.

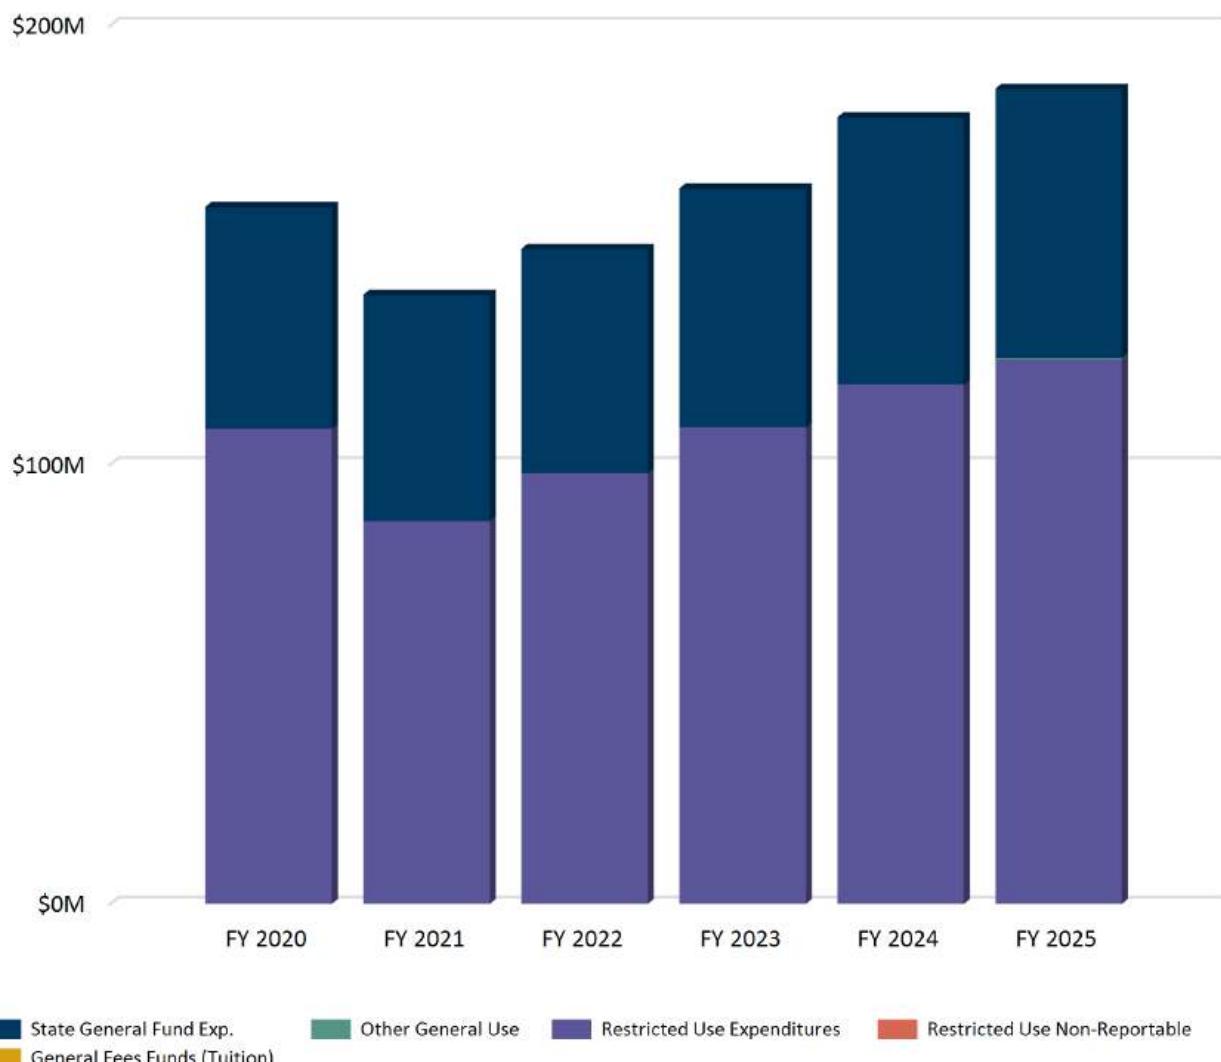

Table E: General Use Operating Expenditures by Object

1. The Utilities category reflects a reduction from FY 2022 to FY 2023 because utilities were included in the Main Campus budget for FY 2023.
2. The overall decrease in expenses from FY 2024 to FY 2025 is primarily the result of completion of projects in FY 2024.

General Notes:

1. Kansas State University – Extension Systems & Agricultural Research Programs (KSRE) is a statewide network of educators sharing unbiased, research-based information and expertise on issues important to Kansas. It has established local, state, regional, national, and international partnerships and is dedicated to a safe, sustainable, competitive food and fiber system and to strong, healthy communities, families, and youth through integrated research, analysis and education. This integrated system connects the university to every county through locally based educators who serve as sources of objective information.
2. Extension Systems and Agricultural Research Programs of Kansas State University is a separate state agency for purpose of governor's budget report and related legislative measures.
3. KSRE does not contain student enrollment and demographic data as it primarily serves a research and service function.
4. Definitions of terms in this section can be found in the Glossary.
5. Due to rounding, numbers may not match other published reports.
6. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
7. State University finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table B: Total Operating Expenditures by Fund

1. From FY 2022 to FY 2023, there were substantial increases in State General Fund and restricted use funds, largely reflecting state pay plan adjustments.
2. Substantial increases from FY 2024 to FY 2025 are primarily related to increased research activity in support of the Next-Gen strategic plan.

Table C: All Funds Operating Expenditures by Program

1. The FY 2021 “Other (including Transfers” expenditure categories in Table C and Table D increased substantially from FY 2020 to FY 2021. This increase was related to capital improvement projects for renovations at Umberger Hall and the Feed Mill.
2. Expenditures for Public Service and Research increased from FY 2022 to FY 2023, reflecting state pay plan increases.
3. Increases from FY 2024 to FY 2025 are primarily related to increased research activity, largely related to the Next-Gen strategic plan.

Table D: General Use Operating Expenditures by Program

1. The FY 2021 “Other (including Transfers” expenditure categories in Table C and Table D increased substantially from FY 2020 to FY 2021. This increase was related to capital improvement projects for renovations at Umberger Hall and the Feed Mill.
2. Beginning in FY 2019, K-State Research and Extension reflected no general use general use Physical Plant expenditures. This was due to a budget realignment within K-State Research and Extension which realigned funding between Restricted Use and General Use.
3. Expenditures for Public Service and Research increased from FY 2022 to FY 2023, reflecting state pay plan increases and State General Fund funding restorations.

Table E: General Use Operating Expenditures by Object

1. Beginning in FY 2019, K-State Research and Extension reflected no general use general use utilities expenditures. This was due to a budget realignment within K-State Research and Extension which realigned funding between Restricted Use and General Use.
2. From FY 2022 to FY 2023, expenditures for other operating expenditures increased, attributable to State General Fund funding restorations.

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.

Table A: Student Success Index

1. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.
2. Cohort measured includes all first-time entering and transferring degree-seeking students.

Table B: Total Operating Expenditures by Fund

1. Restricted Use expenditures increased significantly from FY 2021 to FY 2022, largely the result of increased research funding and increased federal COVID-19 related funding.
2. General Use expenditures increased substantially from FY 2022 to FY 2023 primarily for new State General Fund appropriations for IT infrastructure and cybersecurity expenses, an operating grant increase, state pay plan increases, and increased utilities costs. Restricted Use expenditures also increased substantially over the same time frame, reflecting increases for sponsored awards, debt service, and personnel costs.
3. General use expenditures increased from FY 2023 to FY 2024 primarily related to specific State General Fund appropriations and overall operational costs. Restricted uses increases were attributed to growth in research.
4. General use expenditures increased from FY 2024 to FY 2025, primarily due to increased State General appropriations and for operational expenses, mainly for salary adjustments. Restricted use expenditure increases were attributed to increased research funding.

Table C: Total Operating Expenditures by Program

1. Total expenditures by program from FY 2022 to FY 2023 increased substantially, particularly in Research for sponsored awards, and generally for digital transformation efforts, IT infrastructure and cybersecurity expenses, an operating grant increase, state pay plan increases, increased utilities costs, debt service, and personnel costs.
2. Increases in expenditures from FY 2023 to FY 2024 are attributed primarily to growth in research, salary increases, and routine operating increases.
3. Increased expenses from FY 2024 to FY 2025 are spread across programs and primarily reflect salary adjustments and increased research funding availability.

Table D: General Use Operating Expenditures by Program

1. There were substantial increases in expenditures across most programs from FY 2022 to FY 2023, primarily the result of new State General Fund appropriations for digital transformation efforts, IT infrastructure and cybersecurity expenses, an operating grant increase, state pay plan increases and increased utilities costs.
2. General use increases in expenditures from FY 2023 to FY 2024 are attributed primarily to salary and routine operating increases.
3. General use increases from FY 2024 to FY 2025 are attributed primarily to salary adjustments and ongoing operating expenses.

Table E: General Use Operating Expenditures by Object

1. General Use operating expenditures by object increased from FY 2022 to FY 2023, primarily reflect expenditures for new State General Fund appropriations for digital transformation efforts, IT infrastructure and cybersecurity expenses, an operating grant increase, state pay plan increases and increased utilities costs.
2. Increases in expenditures from FY 2023 to FY 2024 are attributed primarily to salary increases, and routine operating increases.
3. The increase in general use expenses from FY 2024 to FY 2025 is primarily attributed to university-wide salary adjustments, increased research lab fee availability, and scholarships.

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.

Table A: Student Success Index

1. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.
2. Cohort measured includes all first-time entering and transferring degree-seeking students.

Table B: Total Operating Expenditures by Fund

1. The increase in operating expenditures from FY 2022 to FY 2023 is attributed to an increase in State General Fund expenditure from an operating grant increase, and the planned expenditure of tuition and fees fund carryover balances, partially offset by a decrease in restricted use expenditures, stemming from the expenditure of federal COVID-19 related funding in FY 2022, which was not available in FY 2023.
2. The increase in expenses from FY 2024 to FY 2025 is primarily related to one-time expenses for Memorial Union debt service.

Table C: All Funds Operating Expenditures by Program

1. Large increases from FY 2022 to FY 2023 in Academic Support, for IT cybersecurity and IT infrastructure, and Student Services, to support National Institute for Student Success (NISS) playbook strategies, are partially offset by a reduction in Scholarships and Fellowships (expenditures of federal COVID-19 related funding in FY 2022 which was not available in FY 2023).
2. Increases from FY 2024 to FY 2025 are related primarily to increased recruitment and retention salary expenses, Memorial Union debt service, and increased university scholarships.

Table D: General Use Expenditures by Program

1. The large increase in other expenditures from FY 2021 to FY 2022 is attributed to operating expenditures related to capital improvement projects.
2. There are large increases from FY 2022 to FY 2023 in Academic Support (for IT cybersecurity and IT infrastructure) and Student Services (increase to support NISS playbook strategies).
3. Increases from FY 2024 to FY 2025 are primarily related to faculty and staff salary adjustments, related to recruitment and retention and debt service on the Memorial Union.

Table E: General Use Operating Expenditures by Object

1. The increase from FY 2022 to FY 2023 is primarily the result of a 5.0 percent pay plan increase approved by the Legislature and budgeted expenditures for one-time items.
2. Increases from FY 2024 to FY 2025 are primarily related to increased salary expenses and one-time expenses related to the Nursing building.

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.

Table A: Student Success Index

1. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.
2. Cohort measured includes all first-time entering and transferring degree-seeking students.

Table B: Total Operating Expenditures by Fund

1. The substantial reduction in total expenditures from FY 2022 to FY 2023 is the result of increased Restricted Use expenditures in FY 2022 from federal COVID-19 related funding that was not available in FY 2023. In addition, a decrease in General Fees Fund expenditures is due to a change in funding from the university’s Honors College and Intercollegiate Athletics from FY 2022 to FY 2023. These reductions are partially offset by an increase in State General Fund appropriations for IT infrastructure and cybersecurity projects, an increase in the operating grant, and a 5.0 percent pay plan increase.
2. From FY 2023 to FY 2024, the University reflected State General Fund increases for the Global Center for STEM, the Center for Emerging Technologies, and Student Financial Aid. Increases in restricted use funds reflect a shift of IT Cybersecurity from general use to restricted use.
3. The FY 2024 reported totals for Tables B and C do not match due to an issue between the University’s reported total and amounts from the state accounting system.
4. Most of the increase in expenses from FY 2024 to FY 2025 were from restricted use funds related to the purchase of Block 22. Increases from the State General Fund were primarily from appropriations for Regional Stabilization and Capital Renewal initiatives.

Table C: All Funds Operating Expenditures by Program

1. Expenditures in the “all other” category increased substantially, almost entirely due to increased expenditures from federal COVID-19 relief funds.
2. According to the university, the increase in expenditures from FY 2022 to FY 2023 for Instruction is attributable to overall cost increases, along with a change in funding support for an enhanced academic organization. The increase in Academic Support is one-time funding for IT infrastructure and cybersecurity expenditures, along with an increase in available funding for grants and contracts. The increase in Institutional Support is related to changes in funding support for various University projects. The decrease in Other Expenditures is a result of increased expenditures in FY 2022 from federal COVID-19 related funding which did not continue in FY 2023.
3. The FY 2024 reported totals for Tables B and C do not match due to an issue between the University’s reported total and amounts from the state accounting system.
4. Increases by program from FY 2024 to FY 2025 were in the “other” expenses category and primarily reflected the use of restricted use funds for the purchase of Block 22.

Table D: General Use Operating Expenditures by Program

1. An overall increase in General Use expenditures from FY 2022 to FY 2023 is comprised of increases in Academic Support for IT infrastructure and cybersecurity allocation. The decrease in FY 2023 in expenditures for Student Services and Scholarships & Fellowships is primarily due to elimination of Maintenance of Effort funding and a change in General Use funding for Intercollegiate Athletics. The increase in Other Expenditures is primarily due to costs funded from tuition carryover balances associated with the expansion of McPherson Hall for the School of Nursing.
2. An increase in general use expenditures from FY 2024 to FY 2025 is primarily the result of Regional Stabilization and Capital Renewal initiatives from the Legislature.

Table E: General Use Operating Expenditures by Object

1. Pittsburg State University's "Classified – FTE" and "Classified – Expenditures" are no longer listed separately and now are included in "Unclassified – FTE" and "Unclassified – Expenditures" categories.
2. The increase in FY 2023 General Use expenditures is primarily for Unclassified Salaries because of a 5.0 percent pay plan increase, as well as increases in the cost of benefits. There was also an increase in Utilities due to rising costs.
3. The increase in expenses from FY 2024 to FY 2025 is primarily the result of Regional Stabilization and Capital Renewal initiatives from the Legislature.

Kansas Board of Regents

157

2026 State University Data Book

General Notes:

1. Definitions of terms in this section can be found in the Glossary.
2. Due to rounding, numbers may not match other published reports.
3. In Fiscal Years 2020 through 2024, the universities received and expended varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.
4. State University student and finance data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.

Table A: Enrollment by Student Characteristics

1. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These numbers more accurately reflect the change in student population.
2. Prior to AY 2022, Fort Hays State University reported their China campus students as Non-Resident Aliens. For AY 2022, they incorrectly reported their China campus students in the Asian and Unknown categories. After reviewing federal guidance, FHSU provided corrected AY 2022 numbers for the state university data book. Starting with AY 2022 in the 2023 State University Data Book, China campus students are now correctly reported in the Unknown category. Data for prior years has not been corrected.
3. In Academic Year 2022, Fort Hays State University submitted erroneous completion data. Upon request, the university provided corrected completion counts for each degree type. The corrected data was provided after publication for the 2023 State University Data Book, and for that reason Table 3.6 had not initially been updated to reflect these new counts. The corrected data for Academic Year 2022 has been published starting with the 2024 State University Data Book and will not match KHEStats.

Table A: Student Success Index

1. More detail on the purpose and methodology of the Student Success Index can be found in the Glossary section.
2. Cohort measured includes all first-time entering and transferring degree-seeking students.

Table B: Total Operating Expenditures by Fund

1. The substantial increase in scholarship and fellowship expenditures from FY 2021 to FY 2022 reflects increased student financial aid expenditures from the Federal American Rescue Plan and other COVID-19 related funds.
2. Between FY 2022 and FY 2023, the large increase in State General Fund expenditures is the result of increased funding for the University’s operating grant, IT and cyber security expenditures, and capital renewal funding. The large decrease in General Fees Fund expenditures is the result of the increased available funding from the State General Fund. A large decrease in restricted use funding is the result of federal COVID-19 related funding spent in FY 2022 and not available in FY 2023.
3. Most of the increase from FY 2023 to FY 2024 came from the State General Fund and is the result of salary adjustments and additional student financial aid funding.
4. The overall decrease in expenses from FY 2024 to FY 2025 primarily reflect one-time State General Fund expenses in FY 2024.

Table C: Total Operating Expenditures by Program

1. The substantial increase in restricted use funds from FY 2021 to FY 2022 reflects increased student financial aid expenditures from the Federal American Rescue Plan and other COVID-19 related funds.
2. Most of the increase from FY 2022 to FY 2023 was in Academic Support, related to increased funding for the University’s operating grant, IT and cyber security expenditures, and capital renewal funding. Decreases in Scholarships and Fellowships and Other expenditures from FY 2022 to FY 2023 were primarily the result of federal COVID-19 related funding spent in FY 2022 and not available in FY 2023.
3. Most of the increase from FY 2023 to FY 2024 is the result of salary adjustments and additional student financial aid funding.

4. The overall decreases in expenses from FY 2024 to FY 2025 are primarily related to one-time expenses in FY 2024 for debt service payments, partially offset by increased scholarship expenses in FY 2025, the result of increased Pell Grant availability.

Table D: General Use Operating Expenditures by Program

1. The primary increase in FY 2023 over FY 2022 is in Academic Support and is largely attributable to the 5.0 percent merit pay plan increase.
2. Most of the increase from FY 2023 to FY 2024 is the result of salary adjustments and additional student financial aid funding.
3. The overall decrease in expenses from FY 2024 to FY 2025 is primarily related to one time debt service expenses in FY 2024, partially offset by increases in strategic initiatives, including Telehealth certification and the Western Kansas Nursing Workforce Development Initiative.

Table E: General Use Operating Expenditures by Object

1. There was a significant decrease in general use other operating expenditures related to one-time expenditures made in FY 2022 that were not repeated in FY 2023.
2. Most of the increase from FY 2023 to FY 2024 is the result of salary adjustments and additional student financial aid funding.
3. The overall decrease from FY 2024 to FY 2025 is primarily the result of one-time debt service expenses in FY 2024, partially offset by salary and wage adjustments,

General Notes:

1. The Board Mission is: The Kansas Board of Regents shall pursue measurable continuous improvement in the quality and effectiveness of the public postsecondary educational system in Kansas, while expanding participation for all qualified Kansans. To achieve that mission, the Board will demand accountability, focus resources, and advocate powerfully (adopted 2007).
2. Beginning in FY 2020, Board Office total expenditures reflect COVID-19 funding. These amounts have totaled: \$56,769 in FY 2020; \$14,255,837 for FY 2021; \$1,587,876 for FY 2022; \$5,069,283 for FY 2023; and \$5,450,000 for FY 2024. These amounts are only reflected in the Board Office Total table and not in any of the other three tables presented.
3. For FY 2024, the Board Office total expenditures reflect expenditures for capital improvements totaling \$262,000. This is reflected only in the Board Office Total table and not in any of the other three tables presented.

Board Office – Student Financial Aid: Total Operating Expenditures by Fund

1. The program goal for Student Financial Aid is to administer student financial aid programs efficiently and effectively, in accordance with statutes, regulations, policies and procedures.

Board Office - Administration: Total Operating Expenditures by Fund

1. The program goal for Administration is to provide effective and efficient staff support to the Board of Regents and the postsecondary institutions they govern and coordinate. The Administration program comprises the following core objectives:
 - a. Executive Management: including legal, communications, governmental relations and Board strategic and administrative support.
 - b. Academic Affairs: including academic affairs policy work, administration of adult education, and regulation of out-of-state, private postsecondary education providers.
 - c. Career and Technical Education: including work force development policy work, the support of the Technical Education Authority, and the administration of the federal Carl Perkins program.
 - d. Finance and Administration: including fiscal and administrative policy work, the distribution of state funding that is allocated to 32 public colleges and universities, state university facilities planning, office operations, data, research and planning, and the administration of the Board's 16 student financial assistance programs.

Board Office – Postsecondary Education: Total Operating Expenditures by Fund

1. The broad Postsecondary Education program comprises of various programs that include flow-through funding allocated by the Board to the 32 public postsecondary institutions – state universities, community colleges, technical college, and Washburn University and any new SGF enhancement appropriated to the Board for distribution to all public postsecondary institutions or targeted to specific sectors or institutions.
2. The “other general use” reflects expenditures from the state Economic Development Initiatives Fund (EDIF). The EDIF is appropriated in the same manner as the State General Fund and is treated as general use funding.

KANSAS BOARD OF REGENTS

GLOSSARY

Academic Support Program - Includes activities carried out in direct support of one or more of the three primary programs (Instruction, Research, and Public Service); activities include library services, museums, academic administration, course/curriculum development, and academic personnel development.

Academic Year (AY) - the academic year for the Regents institutions (and the state) refers to a sequence of Summer, Fall, Spring, the given year being the year in which the spring semester occurs (i.e. the YYYY Academic Year for data collection, covers Summer YYYY-1, Fall YYYY-1, and Spring YYYY). This is referred to as the data collection academic year.

- For **tuition and fees only**, "Academic Year" refers to a sequence of Fall, Spring, and Summer, the given year being the year in which the spring and summer semesters occur (i.e. the YYYY Academic Year for tuition, covers Fall YYYY-1, Spring YYYY, and Summer YYYY).
- Please note that the difference in academic year is for **tuition and fees only**, and all other tables or notes referencing AY in this publication are referring to **data collection** academic year.

Auxiliary Enterprises - Includes activities such as student unions, parking facilities, student health centers, and residence halls, which are self-supporting from user charges.

Completion - Completion refers to a series of reports and graphs designed to measure students who achieved a particular credential type or graduated with a particular degree. Graphs and charts have been designed to look at completions by a variety of categories including credential type, program type, age groups, race/ethnicity, gender, and residency status.

Continuing Instructional Faculty – Full time instructional faculty who were appointed during both the previous fiscal year and the present fiscal year.

Continuing Research and Public Service Faculty – Full time research and public service faculty who were appointed during both the previous fiscal year and the present fiscal year.

Credential Type - The credential type is the particular certificate or degree type a student earns in a given academic year. Credential types include short-term certificates, certificates, associate degrees, bachelor's degrees, master's degrees and doctoral degrees.

Educational and General Program (E & G) - The component of the University budget consisting of all activities, except auxiliary enterprises. The Educational and General Budget includes the Educational Program plus expenditures for Research, Public Service, Scholarships and the Physical Plant.

Education Program - A substantial component of a university budget consisting of the sum of (1) the Instruction Program, (2) the Academic Support Program, (3) the Student Services Program and (4) the Institutional Support Program.

Entrance Year - The Entrance Year is defined as the year in which a student or group of students first entered Kansas' higher education system by enrolling in one of the system's 32 institutions.

Fiscal Year (FY) - Abbreviation for fiscal year; the fiscal year for the Regents institutions (and the state) covers the period July 1 through the following June 30.

Full-time/Part-time Status (Students) –

- Full-time status for the undergraduate level is defined as enrollment in 12 or more credit hours per semester. Full-time status for the graduate and professional level is defined as enrollment in nine or more credit hours per semester.
- Part-Time status for the undergraduate level is defined as enrollment in less than 12 credit hours per semester. Part-time status for the graduate or professional level is defined as enrollment in less than nine credit hours per semester.

Full Time Equivalent (FTE) (Staff) - For budgeted staff positions, FTE represents the sum of (1) budgeted full time positions and (2) budgeted part-time positions equated to full time. There are different types of faculty FTE members:

- **Full Time Faculty Equivalents** – Staff who have faculty instructional/research/public service personnel, with faculty rank. This does not include lecturers, no rank faculty, or faculty in phased retirement.
- **Full Time Instructional Faculty** – Full time staff with faculty rank having primary assignment (50 or more percent) in Instruction.
- **Full Time Research and Public Service Faculty** – Full time staff with faculty rank having primary assignment (50 or more percent) in Research or Public Service.

Full Time Equivalent (FTE) (Students) - For fall enrollment, one FTE student is represented by 15 semester credit hours for undergraduate or 12 semester credit hours for graduate students, regardless of student level or program. For academic year enrollment, one FTE is represented by 30 credit hours of enrollment in an academic year for undergraduates and 24 credit hours of enrollment for graduate students in an academic year. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.

General Fee Funds - The funds to which revenue from tuition charges are deposited. Expenditures for General Fee Funds are one of the major components of the General Use budget.

General Use Funds - One of two major sources of funding of Regents institutions' operating budgets; general use funds consist primarily of state general fund appropriations, general fee (tuition) revenue, federal land grant funds (KSU only), and medical scholarship repayment funds (KUMC only).

Graduate Research Assistants – Graduate student support personnel who are paid with research dollars and support research activities.

Graduate Teaching Assistants – Graduate student support personnel who are paid with instructional dollars and support credit hour production.

Gross Building Area – Floor area contained in the building measured to the internal face of the external walls.

Headcount – Headcount is defined as the number of students enrolled in one or more postsecondary courses.

Institutional Support Program - Consists of activities carried out to provide for both the day-to-day functioning and the long-term viability of the institution as an operating organization; such activities include executive management, fiscal operations, general administrative services, logistical services and public relations/development.

Instruction Program - Includes activities related to the design and teaching of courses.

Kansas Higher Education Statistics (KHEStats) –It is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHERS allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.gov.

Kansas State University Extension Systems and Agricultural Research Programs (KSRE) - a unit of Kansas State University which primarily serves a research function.

Operating Budgets - The total budget for all university activities with the exception of capital improvements.

Other Graduate Assistants – All graduate assistants who are not teaching or research assistants.

Other Operating Expenditures (OOE) - All operating expenditures of the Regents institutions other than those made for salaries and utilities; OOE commonly includes expenditures for faculty and staff travel, library acquisitions, equipment purchases, telecommunications, and supplies.

Physical Plant Program - Consists of those activities related to maintaining buildings and grounds, providing utility services, and planning and designing expansions and modifications of facilities.

Primary Faculty Assignment – 50 or more percent time devoted to a specific activity (research, instruction, public service). If an individual is appointed exactly 50 percent to instruction and 50 percent to another activity, the position is counted in the totals for instruction.

Public/Patient Service Program - Includes program elements established to make available to the public the various unique resources and capabilities of the institution for the purpose of responding to a community need; activities include patient care (KSUVMC only), community services, public broadcasting, and cooperative extension.

Public Service - Expenses for all activities budgeted specifically for public service and for activities established primarily to provide noninstructional services beneficial to groups external to the institution.

Race / Ethnicity- Starting in fall 2010, state universities were required to report student's race/ethnicity according to definitions and parameters established by U.S. Department of Education (IPEDS). According to these new definitions, universities are now able to report student's race/ethnicity in four newly created or modified categories: *Black or African-American*, *Asian*, *Native Hawaiian/Pacific Islander*, and *Two or more races*. The other race/ethnicity reporting categories are *White*, *Non-resident Alien*, *American Indian/Alaska Native*, *Asian*, and *Unknown*. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection. Due to these race/ethnicity modifications, starting in fall 2010, the students in the Hispanic ethnicity category increased; the students in the "Unknown" category decreased.

Relative Funding - This term refers to financial comparisons between Regents institutions and designated peer institutions. Typically, the comparison is expressed as a percentage. Therefore, relative funding of 90 percent would indicate that for every dollar the peers are spending, our institutions are spending 90 cents.

Replacement Cost – Present day replacement cost of a similar function asset at pre-loss condition, which may not necessarily be the market value of the item and is typically distinguished from the actual cash payment which includes a deduction for depreciation.

Required Fees – Required fees include mandatory fees generally paid by all students. They do not include other fees institutions charge on a conditional basis (such as housing, certain lab fees, etc.).

Research Program - Includes activities intended to produce one or more research outcomes, including the creation of knowledge, the organization of knowledge, and the application of knowledge.

Resident by Exception - Students who were not domiciliary residents of Kansas at the beginning of the academic year but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.

Restricted Use Funds - One of two major sources of funding of Regents institutions' operating budgets; restricted use funds include all revenue from: gifts, grants and contracts from federal, state, local, and private sources; student fees other than tuition; all income from the operations of auxiliary enterprises; and all other revenues not designated as general use funds.

Retirements – Retirements among tenured and tenure track ranked faculty during the most recently completed fiscal year.

Scholarships/Fellowships Program - Includes financial assistance provided to students in the form of grants and scholarships.

Service Clearing Operations - Self-supporting operations, such as computing, printing, central stores, and central motor pool, which provide services for a fee to other institutional units.

State General Fund (SGF) - The fund to which much of state tax revenues are deposited and the fund from which the Regents institutions receive virtually all state tax support for their operating budgets.

State University Faculty Report (formerly DBTF) Section I: Salaries and Tenure Status of Full-Time Instructional Faculty - Section I reflects salaries and appointments of full-time instructional/research/public service personnel, with faculty rank and persons who have faculty credentials, faculty experience and faculty assignments, but who do not hold faculty rank, whose **primary** assignment is **instruction**. Primary is defined as 50 or more percent.

State University Faculty Report (formerly DBTF) Section V: Salaries and Tenure Status of Full-Time Research and Public Service Faculty - Section V reflects salary and tenure data for full-time persons, with faculty rank, and persons who have faculty credentials, faculty experience and faculty assignments, but who do not hold faculty rank, having primary assignment (defined as 50 or more percent) in Research or Public Service.

State University Faculty Report (formerly DBTF) Section VI: Salaries and Percentage Increases for Unclassified Personnel - Section VI is a summary of unclassified salary increases during the current fiscal year, for both continuing and non-continuing personnel.

State University Faculty Report (formerly DBTF) Section VII: Range of Unclassified Salary Increases, Continuing Personnel - Section VII reflects the range of unclassified salary increases granted during the fiscal year.

State University Faculty Report (formerly DBTF) Section VIII: Tenure Summary of Institutional Personnel - Section VIII is a headcount enumeration of all tenured personnel and personnel occupying tenure eligible positions on the reporting date. As this is a report of headcount, individuals holding tenure are counted as 1.0, regardless of their full-time equivalence for budgeting purposes. Individuals are counted in the activity where they spend the largest percentage of their time.

State University Faculty Report (formerly DBTF) Section IX: Faculty by Age and Discipline - Section IX is a headcount enumeration for faculty members, having primary responsibilities in instruction, research and public service by age and department, during the current fiscal year.

State University Faculty Report (formerly DBTF) Section XI: Departures by Rank and Type - Section XI reflects full-time tenure and tenure track ranked faculty in instruction, research and public service, who resigned, retired, or were terminated from the institution during the most recently completed fiscal year. Included are full-time faculty with primary assignment in the areas of instruction, research, or public service and having the ranks of instructor, assistant professor, associate professor and professor. The definition of full-time includes personnel on 9-month and 12-month appointments but excludes personnel employed as graduate assistants or employed on a less than full-time basis. Individuals departing the institution due to death were excluded.

State University Faculty Report (formerly DBTF) Section XIII: Budgeted FTE Positions by Program – Section XIII identifies budgeted FTE positions in each of the budgetary programs for the applicable fiscal year. Unclassified and classified positions have been reported separately, as well as general use and restricted use positions.

Student Service Program - Includes activities designed to contribute to the emotional and physical well-being of students; such activities include social/cultural development, counseling/career guidance, financial aid administration, student recruitment/admissions/records, and student service administration.

Student Success Index - The Student Success Index refers to a broad indicator developed specifically to provide a more comprehensive picture of student success across the sectors of higher education within the state of Kansas. The index accounts not only for graduates but also for those students who are retained, that is, still pursuing an education, either at the institution in which they first enrolled or another institution within or outside the state's higher education system. A separate index is available for each of the four sectors at stats.kansasregents.gov, on the "Student Success Index" tab.

- Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
- Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
- The Student Success Index varies from typical IPEDS measures in the following ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas' public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as 'retained' in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been

collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.

- Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
- Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Tenure Appointments – Total full time instructional faculty members who are either tenured or are in positions which lead to consideration for tenure.

Tenured Persons - Total full time instructional faculty who have tenure.

Total Gross Area - Area measured to outside face of each enclosed floor of building, excluding the roof.

Total Salaries - The total fiscal year gross salary amount effective July 20 for faculty rounded to the nearest whole dollar. Exclusions in the total are payments for extra loads, summer teaching, and other stipends. The full salary amount for departmental chairmen is included in this total.

Unclassified Salaries - Salaries of unclassified employees, i.e. employees whose appointment and salaries are determined either by the Board of Regents or the institution's administration. Unclassified employees include faculty, presidents, the chancellor, most top-level administrators, and all other employees who are not classified employees, or the equivalent.

University Support Staff - Employees who were formerly classified civil service employees, i.e. employees whose salaries are determined according to a civil service pay plan established by the Legislature and who converted to university support staff pursuant to K.S.A 76-715a. All university support staff would be on regular permanent position with the only difference being that the administration of employment will be handled at the university level, and not the state. These employees typically include clerks, secretaries, custodians, police officers and skilled workers.
